No objection to either plan

6/15107 Tipping of Waste, Hapsford: Councillors discussed the issued raised at the Public Meeting and it was proposed and seconded that we object to the plan on the following grounds:

1. It has not been proved that there is not an alternative site
It will certainly not be a benefit when it is completed in the long term, in the short term it will certainly not benefit local residents.
3. It is much too close to local residents.
4. Hazzard to motorway traffic
5. Pollution of both water and air.
6. It is good agricultural land.
7. It is a definite eyesore.
8. With the present advance in technology we can see no need to plan for a minimum 40 years ahead.
9. The problem of vermin.
10. It will seriously effect property values.
- 11 Green belt in a pleasant rural area.
- 12 Jeopardise the building of a service area on the M56.
